AUTOMATIC SANITIZING CHAMBER

INTRODUCTION

Sanitizing Tunnel / Chamber made by Alice Biotech Pvt. Ltd., helps in eliminating virus and other pathogens on a person's surface as he/she passes through the chamber, using disinfecting chemicals.

Objective: - To sanitize people before and After they enter any protected premises.

Applications: - Hospitals/ R&D establishments, Government offices, Police/ Essential services offices, Shopping malls/Areas, Residential Complexes, Religious Places, Clinics and other areas.

Working: - Simple Components create a sanitization chamber which sprays a mist of disinfectant on the person walking through the chamber.

Care should be taken to walk slowly through the chamber so that the entire

body and clothes etc get fully covered with the mist.
